

sulfonic acids (acyclic compounds)

P 0400

12 - 112

Synthesis of β -Alkyl(aryl)taurines from β -Ketosulfonic Acids. —

The title compounds (III) are conveniently synthesized by oximation of the easily accessible β -ketosulfonic acids (I) (in form of its Ba²⁺ salts) followed by reduction and neutralization. — (ABOSKALOVA, N. I.; BODINA, R. I.; DOLONGO, S.; LIPINA, E. S.; PEREKALIN, V. V.; Zh. Org. Khim. 27 (1991) 6, 1357-1358; Ross. gos. pedagog. univ. im. Gertsena, Leningrad, USSR; RU)
