

YOUR NOT-SO-SILENT PARTNER

Need an answer? Get **Chemical & Engineering News** on your team and find it fast.

For just 58¢ per weekly issue (\$30 a year), we'll put the industry's latest ideas and technology right at your fingertips.

You'll know what the competition's up to, how to use innovative new methodology and equipment, and where R&D dollars will be most productive. You'll have the analysis you need to spot trends that are going to impact sales, production, construction, and prices. You'll get advance information on policy makers, legislation, and regulatory affairs.

Chemical & Engineering News helps you keep track of market conditions with our Key Chemicals column. We update you on employment prospects industry-wide. And our crisp, comprehensive reporting makes us an indispensable resource for chemists and chemical engineers.

Why not call the toll-free number below and subscribe today?

Your very first issue will show you why forward-thinking professionals get their background from **Chemical & Engineering News**.
