

**This Month's Cover.** There is a growing need for specialized analytical instrumentation to meet laboratory, research, and particularly process monitoring and control needs. To meet this need analytical instrument manufacturers have set up application engineering units. How this operation works out is illustrated by the experiences of several companies. Details appear in the "Report for Analytical Chemists" on page 27 A.

## CONTENTS

### REPORT FOR ANALYTICAL CHEMISTS

The growing complexity of analytical instrumentation needs in laboratory research and process monitoring and control has led to development of new groups in analytical instrument manufacturing, generally called application engineers. This development is described ..... **27 A**

### NIH SYMPOSIUM AND EXHIBIT

The program for the Symposium on Recent Developments in Research Methods and Instrumentation and the list of exhibitors and their products of the Annual Research Equipment Exhibit at the National Institutes of Health are set forth..... **51 A**

### NEWS SECTION

The annual conference on Analytical Chemistry in Nuclear Reactor Technology is set for October 10 to 12. ISA has large meeting scheduled at Los Angeles, September 11 to 15..... **73 A**

### EDITOR'S COLUMN

Results of a survey on the desirability of standards for filter paper are presented ..... **117 A**

### LABORATORY OF THE MONTH

An accelerated research program on carbohydrates, oils, and proteins at E. A. Staley Manufacturing Co. has increased need for analytical research and service..... **129 A**

### INSTRUMENTATION

The instrumentation editor comments on a new infrared sampling technique and on the difficult art of interpolation and extrapolation ..... **137 A**
