

## SUBJECT INDEX

- Acetaldehyde cyanohydrin,  
the microwave spectrum of — 39
- 2,1,3-Benzoselenadiazole,  
Proton NMR including  $^{13}\text{C}$ - and  $^{77}\text{Se}$   
satellites in organoselenium compounds  
oriented in the nematic phase. Part I.  
The spectrum of — 343
- Bicyclo[4.3.0]nonane,  
the molecular structure of *trans*- and *cis*-  
— in the gas phase, studied by electron  
diffraction and molecular mechanics  
309
- 2,2'-Bipyridyl, 4,4'-bipyridyl,  
structural information on manganese(II)  
chloride, thiocyanate, acetate and sul-  
phate complexes with — and their  
dioxides from their magnetic moments,  
electronic and infrared spectra 143
- Bis-(dimethyldithiophosphato)nickel(II),  
infrared polarised spectrum of — 301
- t*-Butyl-phenylphosphinic acid (—)-menthyl  
ester,  
molecular structure of —: a comparison  
of solid state and solution 331
- CO,  
infrared band intensities: a comparative  
study of the transition moment matrix  
elements for the fundamental and over-  
tones. Part II. Application to —, HCl  
and OH 65
- Cyclic molecules,  
force fields resulting from local sym-  
metry of —. III. Interpretation of the  
vibrational spectra of crystalline glucose  
in the  $\alpha$  and  $\beta$  forms 169
- Cyclopropyldichloroborane,  
vibrational spectrum and conformation  
of — 85
- Deuterium-substituted,  
microwave and infrared spectra of —  
germyl halides and the structures of the  
germyl halides 265
- Difluorobenzenes,  
effects of vibrational averaging on struc-  
tures and order parameters of — in  
various oriented media 111
- Dimethylacetamide,  
structure and chemical bonding in —  
compounds of the acids  $\text{HPF}_6$ ,  $\text{HAsF}_6$   
and  $\text{HSbF}_6$  19
- 1,3-Dithia-2-boracyclopentanes,  
vibrational spectroscopic studies on  
some 2-substituted — 181
- Dodecacarbonyl-triangulo-ruthenium(0)  
and -osmium(0),  
variable-temperature (295–15 K) Raman  
spectra of —,  $\text{M}_3(\text{CO})_{12}$  ( $\text{M} = \text{Ru}, \text{Os}$ ) 29
- Electron density distribution,  
infrared, Raman, and CNDO studies of  
the effect of ions on the — in forma-  
mide 1
- Electron diffraction,  
the molecular structures of *cis*-3-hexene  
and *trans*-3-hexene in the gas phase by  
— and molecular mechanical calcula-  
tions 123
- the molecular structure of  $N,N,N',N'$ -  
tetramethylenediamine in the gas phase,  
an — study 153
- the molecular structure of *trans*- and *cis*-  
bicyclo[4.3.0]nonane in the gas phase,  
studied by — and molecular mechanics  
309
- Ethyl fluorosilane,  
microwave spectrum, structure, dipole  
moment and internal rotation of — 97
- Formamide,  
infrared, Raman, and CNDO studies of  
the effect of ions on the electron density  
distribution in — 1
- 2-Furylisocyanate,  
microwave spectra of *cis* and *trans* —  
conformers 11
- Gallium,  
spectra and structure of — compounds.  
Part VI. Infrared and Raman spectra of  
trimethylgalliumtrimethylphosphine  
193

- spectra and structure of — compounds.  
 Part VII. Microwave, infrared and Raman spectra and normal coordinate analysis of trimethylamine-trimethylgallane 205
- Germyl halides,  
 Microwave and infrared spectra of deuterium-substituted — and the structures of the germyl halides 265
- Glucose,  
 force fields resulting from local symmetry of cyclic molecules. III. Interpretation of the vibrational spectra of crystalline — in the  $\alpha$  and  $\beta$  forms 169
- Halogen nitrates,  
 gas phase infrared spectra of — revisited 155
- $\text{HAsF}_6$ ,  
 structure and chemical bonding in dimethylacetamide compounds of the acids  $\text{HPF}_6$ , — and  $\text{HSbF}_6$  19
- $\text{HCl}$ ,  
 infrared band intensities: a comparative study of the transition moment matrix elements for the fundamental and overtones. Part II. Application to  $\text{CO}$ , — and  $\text{OH}$  65
- 1,5-Hexadiyne (biropargyl),  
 conformation and vibrational spectra of — and 1,5-hexadiyne-1,6- $d_2$  233
- 1,5-Hexadiyne-1,6- $d_2$ ,  
 conformation and vibrational spectra of 1,5-hexadiyne (biropargyl) and — 233
- cis*-3-Hexene and *trans*-3-hexene,  
 the molecular structures of — in the gas phase by electron diffraction and molecular mechanical calculations 123
- High pressures,  
 vibrational spectroscopy at very —. Part 21. Raman and infrared study of mercury(II) iodide 221
- $\text{HPF}_6$ ,  
 structure and chemical bonding in dimethylacetamide compounds of the acids —,  $\text{HAsF}_6$  and  $\text{HSbF}_6$  19
- $\text{HSbF}_6$ ,  
 structure and chemical bonding in dimethylacetamide compounds of the acids  $\text{HPF}_6$ ,  $\text{HAsF}_6$  and — 19
- Hydrogen bonding,  
 structure, — and vibrational spectra of pyruvic acid 75
- 4-Hydroxy-2,2,6,6-tetramethyl piperidine *N*-oxide,  
 on the conformation of the — 291
- Infrared band intensities,  
 —: a comparative study of the transition moment matrix elements for fundamentals and overtones. Part I. General 49  
 —: a comparative study of the transition moment matrix elements for the fundamental and overtones. Part II. Application to  $\text{CO}$ ,  $\text{HCl}$  and  $\text{OH}$  65
- Infrared polarised spectrum,  
 — of bis-(dimethyldithiophosphato)-nickel(II) 301
- Local symmetry,  
 force fields resulting from — of cyclic molecules. III. Interpretation of the vibrational spectra of crystalline glucose in the  $\alpha$  and  $\beta$  forms 169
- Manganese(II),  
 structural information on — chloride, thiocyanate, acetate and sulphate complexes with 2,2'-bipyridyl, 4,4'-bipyridyl and their dioxides from their magnetic moments, electronic and infrared spectra 143
- Mercuric halides,  
 vibrational, NQR and thermogravimetric study of complexes between triphenyl group VB compounds and — 255
- Mercury(II) iodide,  
 vibrational spectroscopy at very high pressures. Part 21. Raman and infrared study of mercury(II) iodide 221
- 1-Methyl-*trans*-cyclooctene,  
 the molecular structure of — 321
- Molecular mechanical calculations,  
 the molecular structures of *cis*-3-hexene and *trans*-3-hexene in the gas phase by electron diffraction and — 123
- Molecular mechanics,  
 the molecular structure of *trans*- and *cis*-bicyclo[4.3.0]nonane in the gas phase, studied by electron diffraction and — 309
- Molybdates,  
 infrared spectra of matrix-isolated gaseous ternary oxides. Part VI. The infrared spectra of lithium, cesium and thallium sulfates and indium and thallium — 297
- Naphthalene,  
 the structure of — 137
- Nematic phase,  
 proton NMR spectra including  $^{13}\text{C}$ - and

- <sup>77</sup>Se-satellites in organoselenium compounds oriented in the —. Part 1. The spectrum of 2,1,3-benzoselenadiazole 343
- NMR,  
proton — spectra including <sup>13</sup>C- and <sup>77</sup>Se-satellites in organoselenium compounds oriented in the nematic phase. Part 1. The spectrum of 2,1,3-benzoselenadiazole 343
- Norborneols,  
microwave spectra and stable conformations of *exo*- and *endo*- — 277
- Normal coordinate analysis,  
spectra and structure of gallium compounds. Part VII. Microwave, infrared and Raman spectra and — of trimethylamine-trimethylgallane 205
- NQR,  
the structural investigation of SbBr<sub>3</sub> (POBr<sub>3</sub>)<sub>2</sub> by <sup>81</sup>Br and <sup>121</sup>Sb — 347
- OH,  
infrared band intensities: a comparative study of the transition moment matrix elements for the fundamental and overtones. Part II. Application to CO, HCl and — 65
- Organoselenium,  
proton NMR spectra including <sup>13</sup>C- and <sup>77</sup>Se-satellites in — compounds oriented in the nematic phase. Part 1. The spectrum of 2,1,3-benzoselenadiazole 343
- Oriented media,  
effects of vibrational averaging on structures and order parameters of difluorobenzenes in various — 111
- Pyruvic acid,  
structure, hydrogen bonding and vibrational spectra of — 75
- SbBr<sub>3</sub> · (POBr<sub>3</sub>)<sub>2</sub>,  
the structural investigation of — by <sup>81</sup>Br and <sup>121</sup>Sb NQR 347
- Ternary oxides,  
infrared spectra of matrix-isolated gaseous —. Part VI. The infrared spectra of lithium, cesium and thallium sulfates and indium and thallium molybdates 297
- N,N,N',N'*-Tetramethylenediamine,  
the molecular structure of — in the gas phase, an electron diffraction study 153
- cis*-Thiopropionic acid,  
microwave spectrum of — 43
- Transition moment matrix elements,  
infrared band intensities: a comparative study of the — for fundamentals and overtones. Part I. General 49  
infrared band intensities: a comparative study of the — for the fundamental and overtones. Part II. Application to CO, HCl and OH 65
- Trimethylamine-trimethylgallane,  
spectra and structure of gallium compounds. Part VII. Microwave, infrared and Raman spectra and normal coordinate analysis of — 205
- Trimethylgalliumtrimethylphosphine,  
spectra and structure of gallium compounds. Part VI. Infrared and Raman spectra of — 193
- Triphenyl group VB compounds,  
vibrational, NQR and thermogravimetric study of complexes between — and mercuric halides 255
- Vibrational averaging,  
effects of — on structures and order parameters of difluorobenzenes in various oriented media 111
