## 2005 Contents

The subject of biotechnology is divided into 11 major sections, each of which is reviewed once a year. Each issue contains one or two of the major sections, and the amount of space devoted to each section is related to its importance.

### February

#### **Analytical biotechnology**

Edited by Keith V Wood and Dieter H Klaubert

### April

#### **Food biotechnology**

Edited by Willem M de Vos

#### **Plant biotechnology**

Edited by Dirk Inzé

### June

#### **Environmental biotechnology**

Edited by Gerben J Zylstra and Jerome J Kukor

#### **Systems biology**

Edited by Hans V Westerhoff

### August

#### **Protein technologies and commercial enzymes**

Edited by Bernhard Hauer and Brian K Kay

### October

#### **Tissue and cell engineering**

Edited by Nissim Benvenisty and Peter W Andrews

#### **Biochemical engineering**

Edited by Govind Rao

### December

#### **Pharmaceutical biotechnology**

Edited by Ismail Kola and Daria Hazuda

#### **Chemical biotechnology**

Edited by Peter N Golyshin
