

# *Just Released* **MOLECULAR GRAPHICS**

## **Sophisticated Molecular Modeling Software For Your IBM-PC Or Compatible**

AMERICAN CHEMICAL SOCIETY  
SOFTWARE™

Molecular Graphics brings the microscopic world of atoms and molecules alive on your display screen.

It gives you the ability to . . .

- Display complex molecules—polymers, enzymes, proteins . . . any desired sequence of DNA or RNA. Molecules with as many as 600 atoms!
- Display two structures simultaneously on the screen rotated independently or in tandem!
- Join or “dock” two structures!
- Rotate molecules, internal bonds or subgroups!
- Show three types of models: wire frame, stick and ball, or space filling!
- Calculate and display molecular distance!
- Highlight, shade or delete parts of the structure!

***THERE IS NO  
RISK  
INVOLVED!***

You can order  
MOLECULAR  
GRAPHICS on a 15-day  
approval. If you are not  
satisfied, return it and ACS  
will refund your payment in full.

### ***CONTENTS***

Master diskette, archival copy, and User's Manual \$500.
