Electrophoretic Elutor

BUCHLER FRACTOPHORATOR™

Now You Can Use Almost Any Gel . . . Any Buffer . . . Any Fraction Collector!

The Fractophorator, for disc electrophoresis, is designed for the separation of proteins, hemoglobin, albumin, enzymes and other compounds, using polyacrylamide or any other supporting medium. It automatically elutes in pre-determined amounts of buffer solution, individual bands emerging from the electrophoretic column and delivers the fractions to a collector. The complete unit can be attached to any electrically driven fraction collector and is activated by the collector's timing system. Load capacity is from a few micrograms to 25 mgm in a 13mm diameter by 130mm long column. **Price: \$570.00**

For further information, request Technical Bulletin AC3-1800.

Fractophorator is shown with Buchler Fractometre 200 Fraction Collector.
